

SPECIFICATION & TECHNICAL INFORMATION SHEET

PHP Item Number: **PHP4X4CMCSAFG**

DESCRIPTION:

The PHP4X4CMCSAFG (4X4 CMC Safety Glass) is designed to be mounted on any rooftop application. The skylight is designed to be installed on a pre-existing curb or a field fabricated curb. The skylight should be installed according to the specification.

INSTALLATION PROCEDURE:

1. Install curb or prepare existing curb.
2. Apply a 1" bead of polyurethane mastic to the top of the curb. Position the bead on the outer perimeter of the curb.
3. Set skylight on the curb and press firmly into place.
4. Secure skylight to the curb with screws provided in PHP installation kit.
5. Install all screws at the pre-marked anchor points on the skylight.

STORAGE:

Store in the original, unopened contained, under cover, until needed for installation.
